

ABI

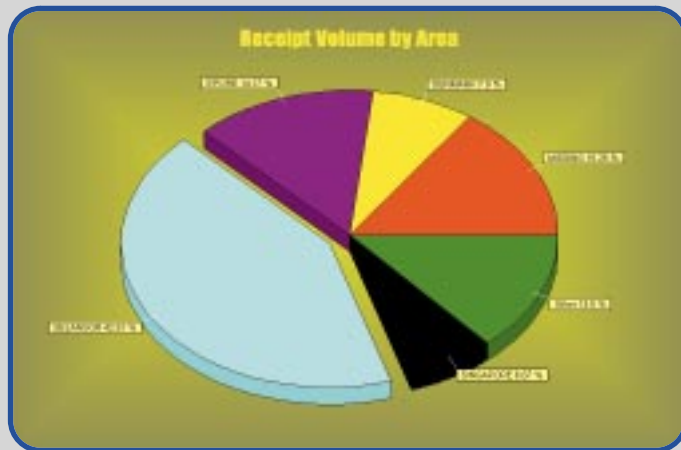

The Affordable Business Intelligence

"Look to the past to Plan the Future"

"Fueled by the current uncertain and difficult global economy, organisations need to better understand and plan their business based on sound comprehensive analysis of corporate information in order to respond quickly to market dynamics"

Source: IDC Press Release - July, 2 2002

The Essential Management and Planning tool for **UBS** in the K-Economy

Solve the top 5 management reporting issues

1. Managers need to know how to use **UBS**
2. Reports prepared manually are not timely
3. Staff must be reassigned to analyse data and prepare reports
4. Reports prepared manually may contain errors
5. Reports prepared by staff are not confidential

Produce these and many more reports directly from your **UBS Stock Control** or **UBS Invoicing**;

- What is the best selling brand of product by volume?
- Who purchased products in a given category during the first quarter?
- Which areas generate the best revenue for a given product category?
- Which agent generates the best Sales to volume ratio for an item?

Buy ABI now and plan for the future

ABI - The Affordable Business Intelligence
