

# BRASSTAX™

Tax is easy when you have the right tools!

## TAX Computations have never been this **EASY!**

EA-Link System Sdn Bhd is committed to help you optimize your business and procedures. Let us introduce you to the Tax Software that your company cannot afford to be without. We have spent more than 4 years of research to bring you a tool that will take the pain out of your Tax preparation.

Access Worksheets and Form C sections from a central control panel.

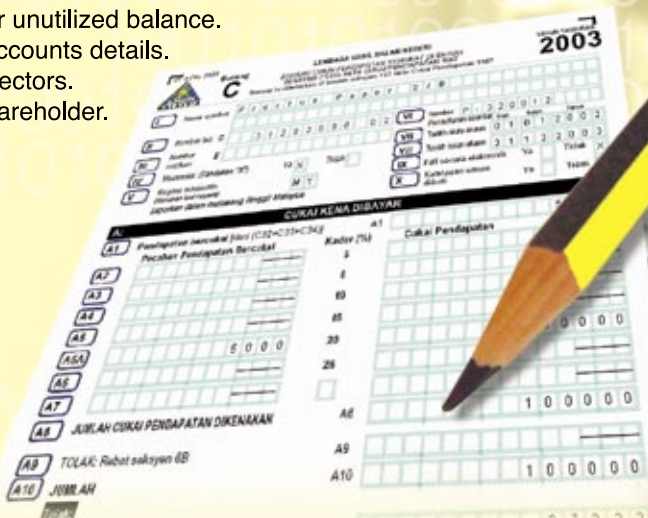

### Better than a Spreadsheet

- Enter data only once... Automatically synchronize to all Forms, Lampiran, Worksheets and Schedules.
- No more "Cut and Paste". Eliminate errors when copying information between spreadsheets.
- Tax Computation, Lampirans and Worksheets are automatically generated as a result of preparing Analysis of Accounts, Form C and Form R.
- Compute CA and Tax Computations for any year with one mouse click.
- Synchronize changes from one year to the next with one mouse click.
- Updates to Tax Rules, Forms, Worksheets and Lampirans are provided with each assessment year. No more changes to spreadsheets with each year.
- Instant access to data for any client for any year with one mouse click. No more searching for the correct spreadsheets.
- No accidental amendments to the Filing. Data can be "Locked" once Filing is submitted to IRB.

### Never start with a blank sheet again

- After the first year, system automatically carries forward:
  - Previous year unutilized balance.
  - Analysis of Accounts details.
  - Company Directors.
  - Company Shareholder.

Produce the fastest and easiest form C ever!

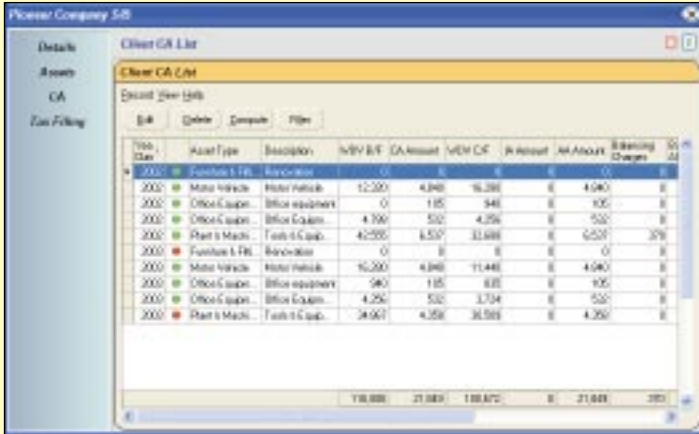

BRASSTAX™ - The easier way of managing your TAX preparation.

# BRASSTAX™

*Tax is easy when you have the right tools!*

Visual indicators alert you to potential and consistency and computations.

Client profiles make it easier for inexperienced staff by filtering out worksheets and lampirans there are not applicable.

## Comprehensive

- Complete work process. Caters for analysis of Accounts to Capital Allowances to Form C/R.
- Client Profile determines the applicable Worksheets and Lampirans.
- Built-in Tax Rules minimise computation errors.
- Capital Allowances caters for
  - "Clawback"
